MAY 7-20, 1983

TODAY & TOMORROW

ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

(Newsbriefs continued)

Four UCSF employees of the "Retirees Employment Program" will be interviewed on KGO-TV, Channel 7, on Tuesday, May 10, 6 p.m. Included in the interview will be coordinator of the program, Faracita Wyatt, Vera Pyle, former Medical Records employee, Hugh Cameron, Professional Fee Billing, and Joseph Bini, Telecommunications.

National Hospital Week will be celebrated on campus the week of May 8 with photo displays in the lobbies of Moffitt Hospital, the Ambulatory Care Center, Medical Sciences, and Moffitt cafeteria. The displays will illustrate the theme, "We Treat You Like Family," and will show the various UCSF programs that help care for patients and their families.

Health experts will answer important questions on nutrition, including how it relates to cancer and heart disease, at a free symposium on Saturday, May 21, from 1 to 5 p.m. at Sutter Auditorium, Mount Zion Hospital and Medical Center, 1600 Divisadero Street.

Sponsored by Mount Zion, the American Heart Association and the American Cancer Society, the symposium, entitled "Eating Well is the Best Defense," will feature from UCSF: John P. Kane, professor, Medicine and lecturer, Biochemistry; Nicholas L. Petrakis, chair, Epidemiology and International Health; Marion Nestle, associate dean , School of Medicine; and Ernest Rosenbaum, associate clinical professor, Medicine, and associate chief, Medicine, Mount Zion.

Reservations are required. For further information call 567-6600, x2224. Free parking is available in an attended lot directly across from the hospital entrance.

IT'S A SWITCH

The Reprographics Department's adminstrative office has moved from A C12 to LS 103, which is on the first floor of the Laundry Storehouse Building. The extension of 1201 remains the same.

The Animal Care Facility reminds all researchers and lab technicians to please return plastic rodent cages to the service elevator on any of the 14 floors in the Medical Sciences building.

A special preview showing of the George Lucas film, "Return of the Jedi," will be held on Tuesday, May 24, at the Coronet Theater, Geary Boulevard and Arguello, at 7:30 p.m., to benefit the Koret Family House.

The Koret Family House (formerly known as Family House) is a residential facility for parents of children receiving cancer treatment at UCSF. Located at 50 Irving Street, it is incorporated as a non-profit, tax exempt corporation, not associated with UCSF. It is supported totally by volunteers.

Tax deductible donations are $50 and can be purchased by calling x2571 or writing the Koret Family House, 50 Irving Street, SF, CA 94122.

Teens 'N Theater, the SFGH-based family life theater company, will perform on Monday, May 9, at the Gumption Theater, 1563 Page Street, at 7:30 p.m. The performance is part of Bay Area Theater Week, sponsored by the Theater Communication Center of the Bay Area of which Teens 'N Theater is a member.

The May 9 performance will feature the best of TNT, consisting of original material written and produced by the company during its last three seasons. Admission is free. For further information contact TNT coordinator Terry Looper at 282-4768.

DEADLINE

Deadline for the next issue of *Today & Tomorrow,* which will cover the time period May 21-June 3, will be **Tuesday, May 10, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.

(SFGH continued)

THURSDAY 12

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCES: *Wound Healing.* Robert Walton, Surg. Rm. 4H40. 8:30 a.m.

FAMILY PRACTICE GRAND ROUNDS: *Low Back Pain.* Peter Trafton, Orth. Surg. Carr Aud. 12:30 p.m.

FRIDAY 13

BAY AREA HUMAN NUTRITION CENTER SEMINARS: *Hyperlipoproteinemia & Atherosclerosis.* Robert Mahley, Gladstone. Rm. 4H2. Noon-1:30 p.m.

TUESDAY 17

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Caring for the Multiply Handicapped Child.* Lucy Crain, Ped. & FCM. Carr Aud. 8:30-10 a.m.

MEDICINE GRAND ROUNDS: *Dysbetalipoproteinemia: Identification of the Metabolic Defect & Mechanism of Atherogenesis.* Thomas Bersot, Med. & Gladstone; Stanely C. Rall, Gladstone. Carr Aud. 11:30 a.m.

NORTHERN CALIFORNIA OCCUPATIONAL HEALTH CENTER GRAND ROUNDS: *Evaluation of Low Back Pain.* Peter T. Singleton, Jr., Med. Carr Aud. 5:15-6:30 p.m.

THURSDAY 19

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCES: *Burns.* Donald Trunkey, Surg. Rm. 4H40. 8:30 a.m.

The 26th Faculty Research Lecture will be presented by Paul Ekman, PhD, professor of Psychology, LPPI, on Monday, May 9, in Cole Hall from 4 to 5 p.m. He will lecture on "From the Outside In: Expression and Physiology of Emotion."

The Faculty Research Lecture is the highest honor the UCSF faculty can bestow on their peers in recognition of outstanding scientific achievement.

In announcing the honor, the faculty hailed Ekman for "virtually single-handedly establishing a new field of research (nonverbal behavior and emotion) as a legitimate area of scientific inquiry."

Through a long and detailed study of facial expressions around the world, Ekman has been able to demonstrate that emotions are both general and specifically altered by cultural influences. These findings were the first to prove a theory proposed by Charles Darwin, more than 100 years ago, that human facial expressions were universal and not dependent on culture, a concept most scientists doubted.

For further information on the lecture call x1307.

Richard J. Havel, MD, director of the Cardiovascular Research Institute (CVRI), has been elected to the National Academy of Sciences.

The NAS advises the Federal Government on science and technology, and election to it is one of the highest national honors that can be awarded a scientist.

Havel is the ninth UCSF faculty member to be elected.

Havel, who has been with UCSF since 1956, became director of the CVRI in 1973. As such he oversees 182 scientists and 131 post-doctoral fellows and graduate students who come to the institute from all over the world.

The CVRI was founded in 1957 by Julius H. Comroe, Jr., MD, now professor emeritus, to conduct interdisciplinary research into problems of the heart, vascular system, lungs and kidneys. It has established itself as a leading center for cardiovascular-pulmonary research and for post-doctoral training in the field.

Havel has developed an international reputation for his work on lipoproteins and cholesterol, which are associated with development of atherosclerotic plaques, or "hardening of the arteries."

Other UCSF researchers elected to the National Academy of Sciences are: Bruce M. Alberts, Biochemistry/Biophysics, 1981; J. Michael Bishop, Hooper Foundation, 1980; Walther Stoeckenius, Cell Biology, 1978; Manuel Morales, Biophysics, CVRI, 1975; Rudi Schmid, dean, School of Medicine, and John A. Clement, CVRI, 1974; C. H. Li, Hormone Research Laboratory, 1973; and Julius H. Comroe, 1961.

The entire campus community is invited to celebrate the Third Annual Chauncey Leake Day on Thursday, May 26.

The day's festivities will begin at noon on the steps of the Medical Sciences building with the UCSF Marching Band and the start of the Stretcher Relay Race, followed at noon by a picnic lunch (hot dogs and soft drinks), a Child Care Center Bake Sale, and a bedding plant sale in Saunders Court. The relay race will end in the Court around 12:30 p.m. followed by a presentation to the winner by Chancellor Krevans.

The day's events will conclude with the Chauncey Leake Lectureship presented by Nobel Laureate Melvin Calvin, PhD, in Cole Hall at 3 p.m. His topic will be "Evolution and Climate." Calvin, professor of

PHARMACEUTICAL CHEMISTRY SEMINAR: *Molecular Basis of Anesthesia.* Issaku Ueda, Anes., U Utah. S 1364. 11 a.m.

REPRODUCTIVE BIOLOGY SEMINAR: *Hormone Induced Morphogenesis: Role of Mesenchymal-Epithelial Interactions.* Gerald R. Cunha, Anat. M 1486. Noon.

EXPERIMENTAL CARDIOVASCULAR PATHOLOGY SEMINAR: *Structure, Function & Regulation of Apolipoprotein Genes, I.* John M. Taylor, Gladstone. HSW 508. Noon-1 p.m.

AAUCSF GRADUATE STUDENT RECEPTION. Faculty/Alumni House. 4-6 p.m. For further information call x4723.

UROLOGY SEMINAR: *Prostatic Cancer.* Patrick C. Walsh, Brady Urol. Inst., Johns Hopkins (John Walter Schulte Visiting Prof.). HSW 300. 4:30-6 p.m.

COLE HALL CINEMA: *Chan is Missing.* Children under 14 $1.25; UCSF students & MU members $1.75; general $2.25. Cole Hall. 6:30 & 8:30 p.m.*

14 SATURDAY

PLASTIC SURGERY TEACHING CONFERENCE: *Craniofacial Correction of Apert & Crouzon's Syndrome.* Larry Colen, Plast. Surg; Douglas Ousterhout, Plast. Recon. Surg. VAMC, Rm. A-125. 7:30 a.m.

* — Open to the public

ROUNDS: *Vulvar Disease Made Easy.* Thomas McCarthy, Ob/Gyn & Repro. Sci. S 1364. 9 a.m.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE. Julian T. Parer, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

FILMS: *Highlights of the Bay Area's Filmakers' Showcase.* Cole Hall. Noon. Free.*

INTERNATIONAL FOLK DANCING. Led by Dean Linscott. No partner needed. Everyone welcome. MU Gym. Noon-1:30 p.m. Special instructions for beginners 12:10-12:30 p.m.*

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *Reconstitution, Purification & Characterization of Ca^{2+} Transport Proteins in Nerve Terminals of Mammalian Brain.* Stan Goldin, Pharm., Harvard. HSW 302. 4 p.m.

JOINT UCSF/UC-BERKELEY BIOENGINEERING SEMINAR: *Audio Earthquake Detection.* David P. Hill, US Geolog. Survey. 240 Bechtel Engr. Ctr., UC-Berkeley. 4 p.m. For further information call 642-8790.

18 WEDNESDAY

HAND SURGERY CONFERENCE: *Dupuytren's Disease.* Samuel E. Logan, Plast. Surg. S 214. 7-8 a.m.

DERMATOLOGY GRAND ROUNDS: *Molecular Approach to Allergic Contact Dermatitis.* Claude Benezra, Derm. HSW 301. 8-9 a.m.

IMMUNOLOGY RESEARCH CONFERENCE: *Topic to be announced.* Lois Epstein, CRI. C 213. 8:30-10 a.m.

ENDOCRINE GRAND ROUNDS: *Diabetes: 1983-2000.* Peter Forsham, Med. LPPI Aud. 9 a.m.

PRIMARY CARE LECTURE SERIES: *Lipid Disorders: How to Sensibly Approach Evaluation & Treatment.* Phil Frost, Med. A 455. 10 a.m.-noon.

MEDICINE GRAND ROUNDS: *The Red Cell Membrane Skeleton: A New Basis for Understanding Some Old Diseases.* Stephen B. Shohet, Med., Hematol. & Lab. Med. *Antiviral Therapy.* W. Lawrence Drew, Med., Clin. Path., Lab. Med. & Micro. Biol. Cole Hall. 10:30 a.m.-noon.

PSYCHIATRY GRAND ROUNDS: *The Woman Psychotherapist, Part I: The Impact of Client & Therapist Gender on Psychotherapy Process & Outcome.* Enrico Jones, Psychol., UC-Berkeley. Discussant: Nancy Kaltreider, Psychr. HSW 301. 11 a.m.-12:30 p.m.

Kaposi's Sarcoma Clinic. Sponsored by the Office of Public Service Programs & the Committee for Arts & Lectures. HSW 302. 7:30-9 p.m. Free.* For further information call x3206 or x2019.

19 THURSDAY

OPHTHALMOLOGY GRAND ROUNDS: *The Application of Nuclear Magnetic Resonance Spectroscopy to the Eye.* Thomas Schleich, Chem., UCSC. S 214. 9:15 a.m. Preceded by Patient Exams & Discussions: *Retina.* Alexander Irvine, Oph. 8 a.m.

OCCUPATIONAL MEDICINE GRAND ROUNDS: *Control of Medical Costs in Workman's Compensation Injuries.* W. B. Whiting, State Compensation Insur. Fund. A 455. 9-10 a.m. Preceded by Clinical Case Conference. J. Irions, US Steel Corp. 8-9 a.m.

PEDIATRIC GRAND ROUNDS: *Osteopetrosis—New Concepts & Therapies of Bone & Marrow.* Jerry Reeves, Ped. Hematol., Travis Air Force Base. *Hematopoiepic Stem Cell Cultures in Bone Marrow Failure.* Harold Koenig, Ped., Naval Hosp., Oklnd. S 664. 8:30 a.m.

PEDIATRIC TUMOR BOARD. M 372. 11 a.m.-12:15 p.m.

NEUROLOGY GRAND ROUNDS: *Tremors: Clinical Spectrum & Treatment.* Stanley Fahn, Neurol., Columbia. S 664. 11 a.m.-12:05 p.m.

CULPEPER LECTURES IN THE HISTORY OF THE HEALTH SCIENCES: *Doctors & Disease in Fiction: The French Novel.* Francis Schiller, Neurol., HHS & PT. S 214. Noon-1 p.m. Free.*

TOPICS IN MEDICAL ANTHROPOLOGY: *Stresses in Refugee Resettlement: Indochinese Community Service & Research Project.* James Freeman, San Jose State. 1320-Third Ave. Noon-1:30 p.m.

NEURO-ONCOLOGY CONFERENCE. L 34. 12:30-2 p.m.

COMBINED HEMATOLOGY/ONCOLOGY ROUNDS. Carr Aud., SFGH. 1:30-2:30 p.m.

PROCTOR FOUNDATION RESEARCH SEMINAR: *Biosynthetic Interferons in the Treatment of Herpes Symplex Virus Keratitis.* David Fuerst, Oph. Hind Library, 95 Kirkham St. 3:45 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. S 214. 4-6 p.m.

NEURORADIOLOGY GRAND ROUNDS. HSW 303. 4-5 p.m.

members $1.75; general $2.25. Cole Hall. 6:30 & 8:45 p.m.*

HEALTH PROMOTION PROGRAMS

Self Care for Your Back. Tues. N 417. Noon-1 p.m.

Smoking Anonymous Group. Tues. LPPI, GO-1. Noon-1 p.m.

Weight Loss Support Group. Tues. U 506. 1-2 p.m.

Tai Chi. Thurs. LPPI 323. 5-6 p.m.

Spirituality & Healing. Wed. N 733 & Fri. U 312. Noon-1 p.m. (except 5/20).

Open to all campus employees. For registration information call x3206.

DEVELOPMENT & TRAINING PROGRAMS

Resume Writing. $5. 10 a.m.-noon. May 10.

Financial Planning. $5. 11 a.m.-1 p.m. May 10 & 12.

The Clerical Staff's Guide to Business English. $20. 1-3 p.m. Tues., May 10-31.

Sexual Harassment & How to Prevent It. $5. 9 a.m.-noon. May 11.

How to Supervise Other People's Writing. $20. 9 a.m.-noon. May 18 & 25.

Open to all UCSF employees. To register call x4032.

OBSTETRICS/GYNECOLOGY & REPRODUCTIVE SCIENCES GRAND ROUNDS: *Vulvar Disease Made Easy.* Thomas McCarthy, Ob/Gyn & Repro. Sci. S 1364. 9 a.m.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE. Julian T. Parer, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

BROWN BAG TOURS LECTURE SERIES: *Set-Point Dieting.* Melody Marks, weight control consultant. Tapes of all talks available for listening in HSE 345, SIMA Unit, UCSF Library. For further information call x4394. HSW 303. Noon. Free.*

ANATOMY SEMINAR: *Regulation of Photoreceptor Cytoskeleton by Calcium & Cyclic AMP.* Beth Burnside, Anat., UC-Berkeley. HSE 1309. Noon.

EXPERIMENTAL CARDIOVASCULAR PATHOLOGY SEMINAR: *The Endothelial Cell: Initial Growth States.* Stephen M. Schwartz, Path., U Washington. HSW 508. Noon-1 p.m.

ORAL BIOLOGY SEMINARS: *Membrane Lipid Cytochemistry.* Daniel S. Friend , Path. HSW 303. Noon-1 p.m.

PHYSIOLOGY SEMINAR: *Studies of Acid Formation in Isolated Gastric Glands.* Thomas Berglindh, Physiol., UCLA. S 758. 3 p.m.

TRISERVICES CARDIOLOGY CONFERENCE. C 130. 4-5 p.m.

DENTISTRY AWARDS CEREMONY MAY 18

Special honor to Benjamin F. Tofflemire, '21. C 701. 4 p.m. Reception to follow in MU lounge. (See Newsbriefs for details).

ORTHOPAEDIC SURGERY CLINICAL GRAND ROUNDS. A 630. 4 p.m.

PEDIATRIC NEUROLOGY ROUNDS. M 666. 4:30 p.m.

UROLOGY CONFERENCE: *Work-up & Treatment of Calcium Oxalate Urolithiasis.* Sverker Ljunghall, Med., U Hosp., Uppsala, Sweden. HSW 300. 4:30-6 p.m.

PATHOLOGY GRAND ROUNDS: *Ultrastructure of Cell Organelles.* Daniel Friend, Path. HSW 508. 5-6 p.m.

FACIAL PLASTIC SURGERY CONFERENCE. Sponsored by Otolaryngology & Head & Neck Surgery. A 723. 5:30 p.m.

FREE HEALTH EDUCATION LECTURE MAY 18

Acquired Immune Deficiency Syndrome: Mankind's Latest Plague. Marcus Conant, Kaposi's Sarcoma Clinic. Sponsored by the Office of Public Service Programs & the Committee for Arts & Lectures. HSW 302. 7:30-9 p.m. Free.* For further information call x3206 or x2019.

PRIMARY CARE GRAND ROUNDS: *Newer Therapies for Rheumatic Diseases.* David B. Hellmann, Med. A 455. 4:30 p.m.

UROLOGY CONFERENCE: *Journal Club.* Richard Schmidt, Urol.; Jack W. McAninch, Urol., SFGH. Location to be announced. 4:30-6 p.m.

RADIATION ONCOLOGY GRAND ROUNDS: *Total Lymphoid Irradiation for Rheumatoid Arthritis.* Richard T. Hoppe, Radiol., Stanford. L 34. 5 p.m.

TEAR GAS CLASS. Class size is limited. Preregistration is required. $10. 5-8 p.m. For further information & registration call x5683.*

NEUROSURGERY GRAND ROUNDS. HSW 302. 5:15-6:30 p.m.

COLE HALL CINEMA: *Diva.* Children under 14 $1.25; UCSF students & MU members $1.75; general $2.25. Cole Hall. 5:45 p.m.*

20 FRIDAY

MENSTRUAL RESEARCH WORKSHOP MAY 20 & 21

Socio-Cultural Issues in Menstrual Cycle Research. Sponsored by Social & Behavioral Sci., Schl. Nurs. $5 students & unemployed; $20 Society for Menstrual Cycle Res. members; $35 general. Registration in Toland Hall. 8 a.m. May 20. For further information call x2453.

PULMONARY PHYSIOLOGY SEMINAR. Presented by Moffitt Pulmonary staff. S 758. 8:10-9:30 a.m.

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

CLINICAL CONFERENCES OF THE LPPI CHILD & ADOLESCENT SERVICES: *Current Issues with Neglected, Abused & Dependent Children—from a Legal Perspective.* Bob Walker, attorney. LPPI Aud. 10-11:30 a.m.

CONSULTATIVE TUMOR BOARD. M 372. 10:45 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

PHARMACEUTICAL CHEMISTRY SEMINAR: *Enzymatic Hydroperoxide-Dependent Metabolism of Drugs & Carcinogens.* Lawrence J. Marnett, Chem., Wayne State, Detroit. S 1364. 11 a.m.

REPRODUCTIVE BIOLOGY SEMINAR: *Direct Actions of Insulin at the Nuclear Membrane.* Ira D. Goldfine, Med. & Physiol. M 1486. Noon.

EXPERIMENTAL CARDIOVASCULAR PATHOLOGY SEMINAR: *Cell Biology of the Vascular Endothelial Cell.* Denis Gospodarowicz, Med., CVRI & Oph. HSW 508. Noon-1 p.m.

COLE HALL CINEMA: *Diva.* Children under 14 $1.25; UCSF students & MU members $1.75; general $2.25. Cole Hall. 6:30 & 8:45 p.m.*

HEALTH PROMOTION PROGRAMS

Self Care for Your Back. Tues. N 417. Noon-1 p.m.

Nonprofit Organization

NEWS BRIEFS

(Leake Day continued)

Chemistry at UC-Berkeley, won the Nobel Prize in Chemistry in 1961 for his work on photosynthesis. He is former director of the Laboratory of Chemical Biodynamics and former associate director of the Lawrence Berkeley Laboratory. His research has yielded important discoveries over broad areas of physical, organic and biological chemistry.

In addition to Thursday's events to honor Leake, two special presentations will be held on Monday and Tuesday, May 23 and 24. On Monday, Linda Hawes Clever, MD, chair of the Occupational Health Program at Pacific Medical Center will talk on how to make your work place beautiful; on Tuesday, Tom Rolinson, associate administrative vice chancellor, will give an update on the "greening" of the campus by the Campus Beautification Committee. Both lectures will be held in Toland Hall, Room U 142, at noon.

Chauncey D. Leake, the well-known scientist and founder of the Department of Pharmacology, was often seen on campus planting a flower or stooping to pick up scraps of paper. As a public speaker, writer and poet, he made significant contributions in the field of pharmacology.

The tradition of "Chauncey Leake Day" was established by the Campus Beautification Committee in 1978 following his death.

For further information on Chauncey Leake Day or if you wish to register for the Stretcher Relay Race, contact Katie Menees at x4421.

Regents' Lecturer Dorothy P. Rice of Social and Behavioral Sciences, School of Nursing, will talk on "The Burden of Illness—Past Trends and Future Projections," on Tuesday, May 24, in Room HSW 303 at 2:30 p.m.

Rice will discuss the factors associated with a sharp rise in health care spending and will present projections of this heavy financial burden of illness in the future.

Recognized as one of the world's leaders in vital and health statistics, cost of illness and national data for health policy, Rice is former director of the National Center for Health Statistics, Department of Health and Human Services, for which her work most recently won the Senior Executive Service Meritorious Award. Rice also holds appointment as a lecturer in the Aging Health Policy Center and the Institute for Health Policy Studies.

Some 400 UCSF anesthesia residents, fellows, faculty, families and friends have been invited to attend the Department of Anesthesia's 25th Anniversary Celebration, Saturday, May 21, at the Mark Hopkins Hotel. The morning scientific program will feature the following prominent visiting faculty: Robert K. Stoeltin, MD, professor and chair, Anesthesia, Indiana University; Bruce F. Cullen, MD, professor and chair, Anesthesia, UCI; C. Philip Larson, Jr., MD, professor, Anesthesia, Stanford; Lawrence J. Saidman, MD, professor and chair, Anesthesia, UCSD; Richard L. Palahniuk, MD, professor and chair, Anesthesiology and John G. Wade, MD, dean, both from the University of Manitoba Medical School, Winnipeg, Canada.

UCSF faculty, all from the Department of Anesthesia will speak at the afternoon session. They include: Michael F. Roizen, MD; Michael K. Cahalan, MD; Ronald D. Miller, MD; Sol M. Shnider, MD; George A. Gregory, MD; H. Barrie Fairley, MB, BS; Cedric R. Bainton, MD; and Edmond I. Eger, II, MD.

Registration and a reception will start the event Friday at the Olympic Club, 524 Post Street, from 6:30 to 9 p.m. For registration information call x3234.

The School of Dentistry will honor Benjamin F. Tofflemire, DDS, a 1921 UCSF graduate and well-known inventor of dental instruments at its annual awards ceremony on Wednesday, May 18 at 4 p.m. in the Postgraduate Auditorium, Room C 701. The ceremony also will honor some 50 students for outstanding achievement. A reception will follow in the Millberry Union lounge.

Since the 1930s, Tofflemire has patented nearly 50 instruments — most of them used for oral and maxillo-facial surgery. The most prominent of his inventions are the matrix band and retainer, first developed in 1948 and still widely used in restorative and operative dentistry offices.

Other Tofflemire inventions include a battery-operated, light-directing, surgical-retracting device and a pneumatic bone-cutting device for orthopaedic work.

Tofflemire recently turned over to the school the numerous patents he still holds "as a token of appreciation" to his alma mater.

For further information on the awards ceremony call x1323.

The School of Medicine's Alumni Faculty Homecoming will be held Saturday, May 21, with a morning 25-year anniversary scientific symposium and an afternoon scientific session, both held in Cole Hall.

The afternoon session will begin at 2 p.m. and will include:

- "New Therapies for Movement Disorders." Silver Anniversary Class Speaker Stanley Fahn, '58, H. Houston Merritt Professor of Neurology, Neurological Institute, Columbia;
- "Terminations of the Common Bile Duct." Alumnus of the Year Harold Linder, '33, clinical professor, Surgery and Topographical Anatomy;
- "Interferon Cloned, Then What?" Thomas Merigan, '58, George E. and Lucy Becker Professor of Medicine, Stanford;
- "Oncogenes and Cancer." J. Michael Bishop, professor, Microbiology and director, Hooper Foundation.

The Charolotte Baer Memorial Clinical Faculty Award will be presented to Saul J. Robinson, clinical professor, Pediatrics, at a banquet that evening at the St. Francis Hotel, Union Square. The award recognizes outstanding service to the School of Medicine by a clinical faculty member. For further information call x1471.

The School of Dentistry has been restructured into four academic departments with the recently established departments of Stomatology and Dental Public Health & Hygiene, it was announced by Dean John Greene. The four departments are:

- Dental Public Health and Hygiene, with programs in dental care delivery systems, dental economics, dental health policy, dental practice administration, epidemiology, hygiene and prevention. Samuel Wycoff serves as the interim chair.
- Growth and Development, with programs in craniofacial anomalies, orthodontics and pedodontics. Chair is Robert Isaacson.
- Restorative Dentistry, with programs in biomaterials, endodontics, fixed prosthetics, operative dentistry, primary care and removable prosthetics. Chair is Malcolm Jendresen.
- Stomatology, with programs in oral biology, oral medicine, oral pathology, oral radiology, oral surgery and periodontology. Interim chair is Thomas Christie.

These modifications will enable School of Dentistry faculty, staff and students, both present and future, to more effectively meet current challenges and to move forward in new directions, declared Greene.

The School of Medicine's Dean's Prize in Research has been awarded to third-year student Ronald Schaefer. The three runners up are Elaine Bearer and David Kantorowitz, both fourth-year and Carla Lupi, second-year.

A presentation of the students' research will be given on Tuesday, May 10, in Room S 214 at 5 p.m. Schaefer will present "A Computer Model of the Sequence Specific DNA Receptor"; Bearer, "Modification of Acidic Lipid Distribution in the Plasma Membrane of Thrombin-Stimulated Platelets"; Kantorowitz, "The Role of Nicotine Poisoning in the Treatment of Cigarette Smoking Addiction"; and Lupi, "Carpal Tunnel Syndrome and Occupation: A Matched Case-Control Study."

The Dean's Prize in Research, which is awarded annually, was established to acknowledge the outstanding accomplishments in research of UCSF medical students.

Leroy E. Hood, MD, PhD, professor and chair of the Division of Biology at California Institute of Technology, has been chosen as this year's Smith, Kline and French Lecturer. He will lecture on "Antibody Genes," on Thursday, May 26, and on "Genes of the Major Histocompatibility Complex," on Friday, May 27. Both lectures will be held in Cole Hall at 1 p.m.

Hood, who is also director of the institute's cancer center, is a member of the National Academy of Sciences and the American Academy of Arts and Sciences. His major research interests lie in genetics and evolution of multigene systems and antibody diversity, protein evolution, protein chemistry and immunochemistry and microchemical instrumentation.

The Smith, Kline and French Lectures feature noted international scientists and have been held each year since 1976. The lectures are sponsored jointly by the Department of Biochemistry and Biophysics and the Smith, Kline and French Laboratories in Philadelphia.

The next campus blood donation day will be Monday, May 9. Blood may be given in the main lounge of Millberry Union from 8 a.m. to 3 p.m., and on the mezzanine level of the School of Nursing building from 11 a.m. to 5:30 p.m. Appointments may be made by contacting the Moffitt Blood Bank at x4013, or donors may visit either location at their convenience. Donors are asked to bring personal identification.

Administrative leave with pay has been approved to allow employees who wish to donate blood to do so during normally scheduled work hours as long as patient care is not interrupted.

The Alumni Association of UCSF has again donated a raffle prize of a $35 gift certificate at the Washington Square Bar & Grill. The restaurant has matched the donation with a second $35 gift certificate. Donors should deposit their receipts at either site to be eligible for the drawing.

Gwen W. Fung and Lloyd Nattkemper, both School of Dentistry students, were the raffle winners of the January 17 blood drive. Of the 270 donors, 122 were dental and dental hygiene students, establishing a record for student blood donations by a UCSF professional school.

The new record was due primarily to a unique contest sponsored by the UCSF Dental Alumni Association in which more than $2,000 in prizes were awarded. Results of the contest were: tied for first place, first- and second-year Dentistry classes, second prize to third-year, and third prize to fourth-year; first prize to second-year Dental Hygiene class, second prize to first-year.

For further information contact the Tours and Speakers Bureau at x4394.

(Newsbriefs continued on back page)

HONORS & AWARDS

Lois B. Epstein, professor, Pediatrics; research associate, CRI; **John P. Kane,** professor, Medicine; lecturer, Biochemistry, CVRI; **Robert W. Mahley,** professor, Pathology & Medicine; director, Gladstone Foundation Laboratories for Cardiovascular Diseases; **Stephen B. Shohet,** professor, Medicine; chief, Hematology; **John D. Stobo,** professor, Medicine; chief, Rheumatology/Immunology; **Ralph O. Wallerstein,** clinical professor, Medicine & Laboratory Medicine: Six of the 40 persons elected to the Association of American Physicians.

Susan Gortner, associate dean, Research, School of Nursing; professor, Family Health Care Nursing: Distinguished Alumni Award, Frances Payne Bolten School of Nursing, Case Western Reserve University.

Marcus A. Conant, associate clinical professor, Dermatology: Best Speaker Award at Seventh Annual Hawaii Dermatology Seminar, for "The Risk of Hepatitis to the Practicing Dermatologist."

Duane D. Walker, associate clinical professor, Mental Health & Community Nursing, School of Nursing: Board of directors, National League of Nursing; selected by American Nurse Administrators to lead a US delegation of nurse administrators to Beijing, Shanghai, Guangzhou and Hong Kong.

Judith Zaeske, coordinator, Employee Rehabilitation Services: Vice chair, SF Mayor's Committee for the Employment of the Handicapped, 1983.

Holly Skodol Wilson, professor, Mental Health & Community Nursing, School of Nursing; **Kim Marie Thorburn,** assistant clinical professor, Internal Medicine and Family & Community Medicine: Three-year postdoctoral Kellogg Leadership Fellowship grants. Wilson to work in the area of geriatric mental health; Thorburn to pursue her work in correctional health care at Neumiller Hospital, California State Prison, San Quentin.

C. C. Wang, professor, Pharmaceutical Chemistry, School of Pharmacy; **Daniel Santi,** professor, Pharmaceutical Chemistry & Biochemistry/Biophysics: To share one of two 1983 Burroughs Wellcome Molecular Parasitology awards.

Raza Aly, associate professor, Dermatology & Microbiology: President, Northern California branch, American Association of Microbiology, 1983-85.

Ernest Kun, professor, Pharmacology, Biochemistry & Biophysics; senior member, CVRI: Invited to speak at a symposium on "Covalent Modification of Regulatory Proteins" in Avila, Spain, May 14-18. Sponsored by the International Union of Biochemists and the Spanish Biochemical Society.

Ken McCollum, manager, Employment Division, Personnel Department: Board of directors, Northern California Human Resources Council.

David F. Teitel, assistant professor, Pediatrics: Three-year New Investigator Research Award, National Heart, Lung and Blood Institute.

PUBLICATIONS

Ellen Y. Siegelman, associate clinical professor, Medical Psychology: Author, *Personal Risk: Mastering Change in Love and Work* (Harper & Row, NY, March, 1983).

Robert H. Glass, professor, Obstetrics, Gynecology & Reproductive Sciences: Co-author, *Gynecologic Endocrinology and Infertility* (Third Edition) (Williams & Wilkins, Baltimore, April, 1983).

Paul Lowinger, associate clinical professor, Psychiatry & Community Medicine: Co-author, *The Minds of the Chinese People: Mental Health in New China* (Prentice-Hall, Englewood Cliffs, NJ, March, 1983).

IN MEMORIAM

H. Brodie Stephens, clinical professor emeritus, Surgery. He was on the faculty from 1935 until he retired in 1972 and continued to serve as a consultant to several East Bay hospitals until the time of his death. He also was a football star on the UC-Berkeley "wonder team" that won the 1921 Rose Bowl.

Raymond P. Hively, '62, graduate of the School of Medicine. He was chief of Emergency Services at Kaiser Permanente, SF, from 1968 to 1978.
